

IC525 - Tackling the Menace of Astigmatism with MSICS

Date
14/03/2026

Hall
Atlantiis 2

Time
12:45pm to 01:55pm

INTRODUCTION

MSICS offers a unique opportunity to transform the challenge of surgically induced astigmatism into a strategic advantage by effectively neutralising it. With meticulous preoperative planning and precise surgical execution, optimal visual outcomes can be consistently achieved.
