

MASTERING THE VITREORETINAL INTERFACE

Surgical Pearls | Intermediate Instruction Course

This intensive course is designed for practicing vitreoretinal surgeons seeking to refine surgical mastery at the vitreoretinal interface. Through curated surgical video analysis and expert commentary, faculty share high-yield pearls in interface vitrectomy, ILM peeling, tractional maculopathies, and macular hole repair. Emphasis is placed on surgical plane identification, complication prevention, and evidence-based intraoperative decision-making.

FACULTY

Chief Instructor
Dr. Sharat Hegde
Vitreomacular Traction (8 min)

Dr. Bhavik Panchal
Lamellar Hole-associated Epiretinal
Proliferation (8 min)

Dr. Chitaranjan Mishra
Myopic Traction Maculopathy (8 min)

Dr. Awaneesh Upadhyay
Macular Hole (8 min)

Dr. Shishir Verghese
Epiretinal Membrane (8 min)
